Final-year computer engineering student at ENSI, **backend & application security**: REST APIs (Django, FastAPI), **JWT** authentication, **GDPR** compliance. 1st place at the ACCEDE Internationale hackathon for a digital group savings platform. Seeking a 4-to-6-month internship in fintech engineering.

Education

National School of Computer Science (ENSI) Engineering Degree – Computer Science (Final Year)	Sept. 2024 – 2027 Tunis, Tunisia
Faculty of Sciences of Sfax Preparatory Classes – Mathematics (Rank: 110/1800)	June 2022 – June 2024 Sfax, Tunisia

Professional Experience

Backend/AI Intern June 2026 – August 2026	Yonnov'IA Remote, France
- Sales teams lacked a traceable, auditable price for their quotes ; AI copilot leveraging sales history and CRM data, integrated into an Odoo ERP, exposing an explainable scoring via a FastAPI REST API. Technologies: Python, FastAPI, PostgreSQL	
AI Intern, Biomechanics & Exoskeleton June 2026 – August 2026	University of Lorraine Remote, France
- A reliable motion-capture pipeline required isolated Python dependencies ; 3D digital twin and musculoskeletal analysis (OpenSim) of an industrial gesture, via two isolated Docker environments, with an automated validation pipeline cutting the anomaly rate from 30% to 0%. Technologies: Python, Docker, OpenSim, MuJoCo	
Software Engineering Intern June 2025 – August 2025	Fogits Sfax, Tunisia
- Manually entering LinkedIn leads was slow and error-prone ; automated collection of 800+ profiles integrated into an Odoo ERP (PostgreSQL) (-85% manual entry). Technologies: Python, Selenium, PostgreSQL, Odoo	

Projects

Financial Inclusion Platform 1st Place – ACCEDE Internationale Hackathon	
- Rural women lacked structured access to group savings ; digital tontine platform managing contribution cycles and rotating payout allocation, via a secure REST API (Django REST, JWT) with simulated mobile money contributions. Technologies: Django REST, PostgreSQL, JWT	
AI Emergency Savior 🤖	
- Arbitrating risk in real time requires balancing several constraints ; multi-objective decision engine (NSGA-II) balancing cost, delay and quality behind a secure REST API, transferable to fintech risk arbitration. Technologies: FastAPI, PostgreSQL, Docker	
Secure Financial Transaction API	
- Processing financial transactions requires security and compliance ; secure API (JWT authentication, encryption, GDPR-compliant endpoints) with asynchronous batch transaction processing (Celery) and logging. Technologies: Django REST, JWT, PostgreSQL, Celery	

Technical Skills

Backend & API : Django REST, FastAPI, Microservices, Odoo/CRM	Security : JWT, OAuth2, GDPR
Databases : PostgreSQL, MongoDB, SQL	Async & Testing : Celery, Redis, pytest
Regulatory (conceptual knowledge): KYC, AML, PSD2, PCI-DSS	DevOps : Docker, Git, CI/CD

Languages

Arabic: Native	English: C1	French: B2
----------------	-------------	------------

Leadership & Volunteering

ENSI Junior Enterprise (EJE) – International Relations Officer	Tunis, Tunisia
AIESEC – Python Teacher	Târgu Jiu, Romania
AIESEC – English Teacher	Gaziantep, Turkey
